Step through the gates of a Blackwood Asylum, where flickering lights and distant screams guard secrets nobody was ever meant to find. This chilling 5-reel, 20-line slot introduces 2 x randomly stacked symbols in every new game, as restrained patients, a wild-eyed nurse, and a brain-exposed doctor watch from the reels.

Harvested eyeballs fall from the reels into vats of slime-slicked liquid, filling them to unlock Multipliers, Free Games with re-triggers, and the FORBIDDEN Jackpot prize, sealed inside its own containment chamber. Survive long enough and the asylum's Bonus Wheel creaks to life - a machine stacked with classified patient files, each one hiding a multiplier or the Jackpot itself.

Asylum Files is evergreen horror built for year-round frights, arriving in time to haunt this Halloween.
